

新豪鑽切工程公司  
SUN HO DRILL CUT ENGINEERING CO.

新豪科技工程有限公司  
SUN HO TECHNOLOGY ENGINEERING CO.LTD

專業・環保・低噪音

Professional、Environmental Protection、Low Noise

# Company Profile

The traditional demolition/alteration to building structure was deemed to be one of the most hazardous causes to our environment due to the pollutants such as dust, noise, vibration, sewage and etc., were generated during the process.

In order to enhance our quality of service and meet the growing importance on environmental protection, SUN HO TECHNOLOGY also introduced a series of advanced mechanical technology and improved technique, to achieve quiet and efficient construction process as well as follow nowadays strict requirements of environmental protection.

## 公司簡介

傳統的建築物拆卸或改建方法被認為對環境做成極大滋擾。尤其是在拆卸或改建過程中，塵土飛揚，噪音擾人，各界對此要求改善之聲不絕於耳。

為了使服務質素更上一層樓及配合日益著重的環保，新豪科技引進了一系列先進的機械科技及改良技術，務求達到施工寧靜快捷，以符合今天環保的嚴格需求。

## Undertake The Project

### 承接項目

- |          |                             |
|----------|-----------------------------|
| 1. 碟式切割  | Blade Saw Cuting            |
| 2. 鏈式切割  | Wire Saw                    |
| 3. 鑽孔工程  | Drilling Engineering        |
| 4. 油壓逼裂  | Hydraulic Force Crack       |
| 5. 打鑿石矢  | Vector Playing Stone Quarry |
| 6. 鑽孔植鐵  | Drilling Iron Plant         |
| 7. 裂縫打針  | Crack Injection             |
| 8. 油漆工程  | Painting Project            |
| 9. 裝修工程  | Renovation                  |
| 10. 清拆工程 | Demolition                  |

# Blade Saw Cutting

## 碟式切割

Ideal Method to form openings on wall, floor or dismantling of concrete structure into manageable pieces where thickness up to 500mm with a clean & smooth cut face.

碟式切割適用於在牆壁，地台開洞口或用於將混凝土結構切細以便運走。此方案可處理物件厚度達500mm厚。

# Wire Saw

## 鏈式切割

With all merits same as the Blade saw cutting but more flexible. And could be operated under water or irregular shape cutting & could handle thickness over 1M.

鏈式切割的優點於一身但更具彈性，可切割水下結構，不規則形狀以及厚度超過一米之件塊。

Cutting of  
concrete stone  
by wire saw  
鋼絲鏈切割  
石矢陣

Isolated concrete  
stone being taken  
away

已切割之  
石塊被吊走

# Drilling Engineering

## 鑽孔工程

Advanced and professional drilling technique can minimize the noise and disturbances caused by the work. It can also precisely and quickly drill holes with the sizes you need.

先進及專業的鑽孔技術，除了可將噪音及滋擾程度減至最低外，更可精確地鑽取所需尺寸，且快捷妥當，絕無後顧之憂。

Isolated wall  
being taken  
away by drilling  
and cutting  
已鑽孔及切割  
之牆身被吊走

Coring  
鑽孔

# Hydraulic Force Crack

## 油壓逼裂

By bursting, drilling has to be done before hand on the structure, followed by placing the hydraulic burster inside the holes. Each buster can produce high pressure up to 200 tonnes which can burst the concete structure quietly and efficiently.

向外逼裂法，首先為進行拆卸的位置鑽孔，再將油壓逼裂機置入孔中，每個逼裂機可向外產生高達200噸的高壓，將混凝土結構無聲無色地作定向逼裂，效率無出其右。

Insert the splitter  
into the  
pre-drilled hole  
鑽孔後再逼裂

# Vector Playing Stone Quarry

## 打鑿石矢

Take down & clear away  
from site existing concrete  
wall, slab, beam & column  
professionally.

專業拆卸石矢牆，樓  
面，石矢陣及柱等。

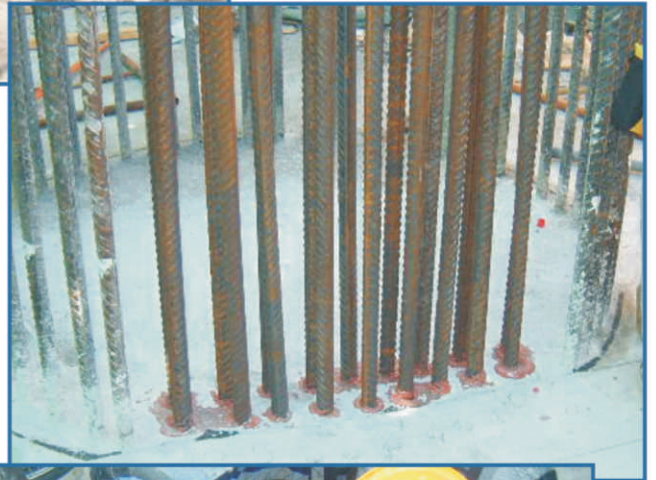

# Drilling Iron Plant

## 鑽孔植鐵

Supply & install structure  
(or reinforcement concrete)  
wall, slab, beam & column.  
新增結構石矢牆，樓面，  
石矢陣及柱等。

# Crack Injection

## 裂縫打針

For water leakage in the concreted structure, apply injection of special resin material into the crack of concrete to proof leakage.

結構石矢位漏水，將材料打入滲漏裂縫內，可防止漏水。

# Painting Project

## 油漆工程

Painting work is our company's profession. Base on the outstanding experiences, good service, external or internal finishing work, our clients will be satisfied with us and bring back pleasant memories in their life.

油漆工程是蔽公司的老本行，憑著超卓的經驗，配合和藹的服務，不論是室內外或翻新工程都令閣下眼前一新，留下美好的回憶。

# Renovation 裝修工程

Hong Kong has a number of decorative construction companies, and our company's right strength and quality, can ensure decoration make perfect.

本港已有多不勝數的裝飾公司，而蔽公司的實力及質量確保工程盡善盡美。

# Demolition 清拆工程

Professional、Environmental Protection、Low Noise
